## PRESIDENT'S MESSAGE

By Brenda Brush

Dear Friends,

It is that time of year that produces Eclipses. About every six months, when a New or Full Moon gets within 17 degrees of the nodal axis, it becomes an Eclipse. The New Moon becomes a Solar Eclipse, and the Full Moon becomes a Lunar Eclipse. The effects of a New Moon will last for 29.6 days until the next New Moon. The effects of a Solar Eclipse can last a couple of years. The effects of a Full Moon will last until the next Full Moon. The effects of a Lunar Eclipse will last for six months; usually until the next Lunar Eclipse.

The degree of the Eclipse becomes a sensitive point, and, when activated, sets off an event associated with what the Eclipse promised. A great activator is Mars. When it goes over a degree that was the point of an Eclipse, you will notice things happening. The Sun is also a good trigger. When the Sun squares the

Eclipse point, 90 days after the Eclipse, it triggers it. When the Sun opposes the Eclipse point, six months later, it triggers it. Any other planet stationing on an Eclipse point can set it off.

On February 6<sup>th</sup>, we had the first North Nodal Solar Eclipse in Aquarius in 18½ years. This will activate the humanitarian side of all of us. It will also stimulate our interest in groups, especially groups of people of like mind. This will also cause us to evaluate our friendships. Some of these people will shift and change in our lives.

This Solar Eclipse was in 17 degrees Aquarius 44 minutes. Chiron is conjunct Mercury at 16 degrees Aquarius, and Neptune is close by at 21 degrees Aquarius. This is quite an interesting line-up, even though these planets will soon move on their way. Because they are together at the time of the Solar Eclipse, their energies will stay until the duration of the Eclipse has subsided. We are talking about a couple of years.

Mercury retrograde and Chiron are going to give us the tools to fix things. Neptune will inspire us to new heights. The woes of humanity will be given solutions. It will be up to us to carry them out. This Solar Eclipse, and all its companions, will be trine to Mars in Gemini. This is favorable for right action.

Uranus is the modern ruler of Aquarius, and it is in Pisces. This is allowing us

to see what has been previously hidden, or what we have been hiding from, that has to be dealt with. Freedom from addictions will be what is necessary. The Sabian Symbol for the degree of the Eclipse is *A Man Unmasked*. That may say it all. There is a need for all of us to remove our masks. This is a real breakthrough time.

Saturn is the old ruler of Aquarius, and it is in Virgo. A perfect place for organizing us to get things fixed. Saturn will move to the opposition of Uranus this Fall. That hasn't happened since the mid-1960s. At that time, their positions were reversed. Saturn was in Pisces and Uranus was in Virgo; now we have Saturn in Virgo and Uranus in Pisces. The Flower Children have matured, and healing will begin.

On February 20<sup>th</sup>, we will have a Lunar Eclipse at 1 degree of Virgo 33 minutes. This is directing our attention to health, diet, nutrition, exercise, work, coping skills and habits. Do you cope well? Over the next six months, this Full Moon/Lunar Eclipse is telling you to step up to the plate. Take on the tasks necessary to correct things. It is time to have a healthier and happier life.

The planet Saturn is retrograde at 5 degrees Virgo at this time, and is joined with the Eclipse. On May 2<sup>nd</sup>, Saturn will go direct at 1 degree of Virgo 20 minutes. That is a station, and it will trigger

this Eclipse right away. Saturn is all about responding. Saturn will not approve of ignoring issues. Saturn will demand that we work on ourselves, and in turn, step up to the plate to help humanity. Be of service!

## WORKSHOP

**Saturday, February 16**

11 a.m. – 5:30 p.m.

### KABALAH, ASTROLOGY, NUMEROLOGY AND THE TAROT

*You do not have to have any prior knowledge about the above subjects before taking this workshop.*

Would you like to learn more about the Kabbalah, Astrology, Numerology and the Tarot?

You have heard the word *Kabbalah*. Everyone is talking about it and studying it! *Would you like to see how it applies to your life?* During this workshop you will learn more about these subjects than you ever thought possible.

Creation: How did it begin? Where do you fit into it and why are you here? This is explained through these four ancient mystical teachings.

The Kabbalah is the study of ancient Tree of Life, based on Hebrew teachings and beliefs. The Hebrew alphabet is used to form the Tree through the use of the four elements – Fire, Water, Air and Earth – as well as the astrological planets, signs and numbers. *The combination of this knowledge allows one to find their spiritual path on the Tree, which then tells them about the lessons needed to*

*understand their life.*

Bring your astrological chart with you. This will also be applied to the Tree.

## GREET THE DAY WITH THE SUN

By Alice Kashuba

Welcome to Leap Day – February 29, 2008, at Sunrise 6:48:14 a.m. in Hollywood, Florida. The Sun is on the Ascendant at 10 degrees Pisces 16 minutes. The Fairchild Symbol\* is 11 Pisces, *A man who is a human barometer.*

This image speaks to our sensitive Moon. Some people are more sensitive to the emotions and energies of people around them than others. Some are sensitive to the signs of the times – the rise and fall of nations and their rulers. A barometer measures the pressure of the

surrounding atmosphere. When the pressure falls too low, hurricanes and other bad weather descend in a fury, rushing through like the destructive whirlwind of Biblical times.

It is as if the normal air pressure is reduced and all our bad feelings come rushing out. When the pressure is higher our emotions are contained, and we maintain a semblance of civility. But too high can cause a build up of pressure, resulting in violent outbursts that can be deadly. When we connect with our inner emotions, they tell us a lot about what is going on in our relationships and our environment. The barometer represents our acknowledgment of who we are. Then we have the responsibility of dealing with them in an appropriate manner.

What house does 11 Pisces occupy in your chart? Are there issues in that area that are emotionally charged?

The Moon is at the top of the chart in 14 Sagittarius 35. This is a 3<sup>rd</sup> quarter square with the Sun – Rudhyar’s “crisis in consciousness.” Here is an opportunity to review what has gone since the Solar Eclipse on February 6<sup>th</sup>. Where is the Moon in your chart? How are the issues of this house related to the placement of the Pisces Sun in your chart?

Sagittarius 15: *A Sufi poet writing a letter to a world leader*

Rumi was a 13<sup>th</sup> century poet who, after meeting a wandering Sufi holy man, wrote inspiring poetry about life and love and spirit. Today, one might look to the Dalai Lama, who travels the world speaking of peace and justice and human rights and the spiritual life.

The Sagittarius Moon is in an applying square to Uranus in Pisces in the 1<sup>st</sup> house. We need to wake up to what is important in our lives. In this year of presidential elections we

each have a chance “to be the change we wish to see.” (Ghandi)

Leap Day is an extra day to pray or meditate on the important issues in your life – and to send out thoughts of peace and love and light.

\*The Fairchild Symbols are a modern version of the Sabian Symbols and were created by Alice Kashuba and an anonymous clairvoyant. For information, visit Alice’s website, [www.astroviews.com](http://www.astroviews.com).
